About The Company

Metiş Deri was founded in 1998 in a small workshop in İstanbul by Cumali Ulaş. With a manufacturing approach based on quality, timely production, and customer focus, it quickly became one of Turkey's most sought-after leather goods workshops. Metiş Deri has become a reliable manufacturing partner for brands thanks to its craftsmanship in combining leather with different materials, its attention to detail, and its commitment to unconditional customer satisfaction. Indeed, the company's extensive and well-established customer network today is built upon the principled work ethic it has upheld since day one.

By 2006, blending the centuries-old tradition of leather craftsmanship with modern design and processing techniques, Metiş Deri launched its own brand, Cangurione, with the aim of creating unique, inspiring pieces.

At Cangurione, the ancient art of leather craftsmanship merges with superior mastery and advanced innovation, transforming into timeless leather accessories. These pieces come to life at Cangurione, becoming objects of passion for modern men and women.

As in the past, Metiş Deri will continue to unite the spirit of the times with the timeless wisdom of leather craftsmanship in the years to come.

Legend, Culture, Tradition.

Leather has been crafted on these lands for centuries. We are the representatives of an ancient tradition. Our mission is to practice the art of leather craftsmanship in its most extensive and profound form and to pass it on to future generations. We see leatherworking and the use of leather accessories as a matter of culture and approach it within this framework.

Craftsmanship.

The spirit of the times whispers the return of leather artistry. At Cangurione, exceptional handcraftsmanship merges with deep mastery to create unparalleled leather accessories
